

RCCC Short Run

11:00--Meet Cirby Drive side of Kaiser parking lot

11:30--Lunch--McClellan Officer's Club

1:00-- Tour Aerospace Museum & fly the Simulator

Friday, March 27th

We will meet on the Cirby Drive side of the Kaiser parking lot near the street at 11:00. We will then drive to McClellan via Roseville Rd and have lunch at the **Officer's Club**. The Club will not do individual checks. They will do separate checks for each of the three 10-person tables. So, each table will have to pick someone to collect the money for the table. **Bring cash** if possible. There is plenty of parking less than 1/2 block away with handicap parking right in front. Allowing 1 1/2 hours for lunch, we should leave there around 1:00.

The **Aerospace Museum** is a short drive from the O'Club. Plenty of free parking there too. Admission is \$15 per person. The flight simulator is normally an additional \$10 but they threw that in so anybody that wants to can fly one of their five Sims. The basic tour is about 1 1/2 hours. Flight Sim time is added to that so depending on the number of simulator flyers we should easily finish by 4.

The Museum will take cash or credit card. Credit cards will add several additional minutes per person getting in. A better option will be for me to collect in advance at the upcoming club meeting so **BRING CASH or CHECK.** **Contact: rich@fabbre.com**

Let's all drive our Corvettes
